### Civics and Economics Major Concepts and Terms

I have gone through the North Carolina Standard Course of Study for the Civics and Economics course and listed all the major concepts and terms that you must know. I have listed them by competency goal. There are some terms that have an "\*" next to them that are not in the textbook so use a computer to help you. All the major concepts are in **bold** and all terms are in normal print.

**Instructions:** Follow the questions in bold to define all the terms or tell why they are important. All concepts that have a line after them also need defining.

#### Competency Goal #1

**Define the three regions of American colonies in the areas of farm size and crops grown, economic diversity, slavery, colonial social structure, ethnic and religious diversity, and number and size of cities?**

New England \_\_\_\_\_

Middle Colonies \_\_\_\_\_

Southern Colonies \_\_\_\_\_

**Identify these terms and where they would be located in the American colonies.**

Plantation system \_\_\_\_\_

Slavery \_\_\_\_\_

Pilgrims \_\_\_\_\_

Puritans \_\_\_\_\_

Quakers \_\_\_\_\_

Town meetings \_\_\_\_\_

**Define these terms.**

Jamestown \_\_\_\_\_

Mercantilism \_\_\_\_\_

Indentured servants \_\_\_\_\_

Middle Passage \_\_\_\_\_

Triangular Trade Route \_\_\_\_\_

Bacon's Rebellion \_\_\_\_\_
